Professional Summary:

Experienced oilfield professional with over 16 years of expertise in Surface well testing operations, data acquisition, and slickline operations. Proven track record in utilizing advanced technologies such as Multiphase Flow Meter Vx Spectra for both onshore and offshore projects. Adept at handling high-temperature and high-pressure wells, and proficient in delivering accurate and reliable data for operational decision-making. Seeking a challenging role as a Data Acquisition engineer, Vx Specialist, Well Testing senior Operator in a dynamic oil and gas company.

Key Skills:

- Well Testing Operations: Extensive experience in Surface Well Testing such as frac flowback and EPF operations.
 - Data Acquisition: Proficient in using advanced data acquisition systems and software – such as Helios, Vx service manager, Vx post processor, and reporting using Microsoft excel, Microsoft word and pdf services.
 - Multiphase Flow Meter Vx Spectra: Specialized in operation – Exploration and production well test, maintenance, and troubleshooting. utilized MPFM Vx spectra for frac and acid flowback.
 - Slickline Operations: Skilled in basic slickline operation.
 - Onshore & Offshore Experience: Hands-on experience in various field environments, including high H2S and high-pressure wells.
 - Multilingual Communication: Fluent in English, native in Bahasa Indonesia.
 - Utilizing AI - Gemini pro to develop SWT/DAQ android apps, current status available in closed testing, in-review by google before release to play store production.
-

Professional Experience:

Testing Data Acquisition Engineer

Mabrouk Field, Oman

December 2023 – Present

- Conducted frac flowback and EPF operations, ensuring precise data acquisition and daily reporting to shell development oman.
- Worked with Daleel Petroleum and OQ Petroleum as a Multiphase Meter Vx Specialist.
- Handled maintenance and troubleshooting of Vx meters, ensuring optimal performance and accuracy.

Surface Well Test and Multiphase Meter Specialist

SLB Consultant

June 2021 – November 2023

- Supervised daily well test operations, conducting Multi Rate Tests on production wells.
- Reported data production and operational updates directly to Aramco foreman.
- Utilized SWAN sensors to support coil tubing sand and acid frac operations.
- Conducted MPFM Vx Spectra operations for well cleanup.

Business owner

Pusat Hidroponik Manggar

October 2017 – January 2021

- Conducted hydroponics training for retired civilians and small villages.
- Provided hydroponics tools, equipment, and installation services.

Surface Well Test Specialist

Schlumberger Saudi Arabia

July 2014 – September 2017

- Led Production well test operations using Vx Spectra, ensuring accurate data production and reporting to Aramco foreman.
- Involved in zero flaring well test operations and ECS clean-up proppant frac.

MPFM Vx Specialist

Schlumberger International

September 2012 – June 2014

- Oversaw well test Multi Rate operations on unmanned platforms in Brunei Darussalam.

- Worked with 10K sand filter to support coil tubing for nitrogen lift and acid wash.

Slickline Specialist

Schlumberger Indonesia

September 2009 – August 2012

- Conducted daily slickline operations, including equipment preparation and mobilization.
- Supported coil tubing for acid clean-up with H2S surface pressure equipment.
- Experienced with basic slickline tools, shifting tools, and pulling tools.

Surface Well Test and MPFM Vx Specialist

Schlumberger Indonesia

September 2005 – September 2009

- Supported MPFM Vx operations in indonesia, iran, sudan, oman and saudi arabia.
 - Worked on various projects, including Chevron Pacific Indonesia and Kurau Island.
-

Professional Training:

- Phasetester MPFM Course, Schlumberger European Learning Centre, France
 - Xpert Slickline Training, Melun, France
 - Xpert Surface Welltest, Melun, France
-
